Overview

Deliver peace of mind and protect privacy with an Automatic Privacy Shield that can be scheduled to close when a security system is disarmed or based on Scenes and schedules. Record encrypted, 24/7 4MP footage locally and up to 1.5 TB on the camera with a microSD card. View live and recorded video on the Alarm.com customer website and mobile app from anywhere, using the Smart View video timeline to search for important events such as person detected or door accessed, and jump straight to the corresponding footage.
